

Welcome to our school!!

This school is a full-time one: it starts at 8.15am and ends at 4.15pm, every day, except Saturday. The canteen time (lunch time at school) is a part of the school day. Registration for the canteen must be done at the 'Educational Policies' in via Del Vecchio Passeggio 1, tel. 0372 407922. You can also ask for a special menu for food problems (allergies) or for religious reasons (no meat or no pork).

In the middle of the morning (at 10.05am) there is a small interval to go to the bathroom and have a snack. The snack is provided by the school: fruit, yogurt or crackers.

After lunch there is a moment of free play before resuming classes in the afternoon.

In our school there are 10 classes, course A and course B. In each class there are 2 or 3 teachers. The subjects in each class are: Italian language, mathematics, history, geography, science, physical education, music, religion.

Those who do not want to attend religion can make the choice of going home or staying in school and doing alternative activities to religion, which are researches, study or in-depth work that will be done with a teacher in the class.

In our Institute we have the Electronic Register. On the E.R. the teachers mark every day the arguments made and the absent students. When there are important communications for the class they are written on the register. If a student is absent she/he can use the E.R. to look at what is being done at school every day and she/he can also send material (homework) to teachers to have them corrected.

To enter the student's E.R. you need a password which must be requested in the school secretariat.

To record homework and other home-school communications we use the school diary (the physical one).

In this diary there are also forms that parents must sign (communication with the names of those who come to pick up the child, exit authorizations, ...) and small pieces of paper to write the justifications for absences. When the child returns to school after an absence she/he must have the justification signed by the parent with the reason of the absence.

The teachers of the class will give the student a list of materials to buy and the books to order. Books should not be paid because in primary (elementary) school they are free.

For all communications it is important to always check the Institute's website:
